## Influencer Marketing Analytics through each channel

## **Conversion Rate**

- The 88% conversion rate that TikTok generated through the channel indicates that the influencers we selected for TikTok have a positive impact that should be sustained.
- We generate 54% of our content on Facebook and Twitter. We must review the campaign to produce more and have the same impact as Facebook or TikTok.
- We were able to reach a minimal conversation rate of 0% on Facebook and our blog. Wherever an influencer's impact is lower, a different strategy must be implemented.
